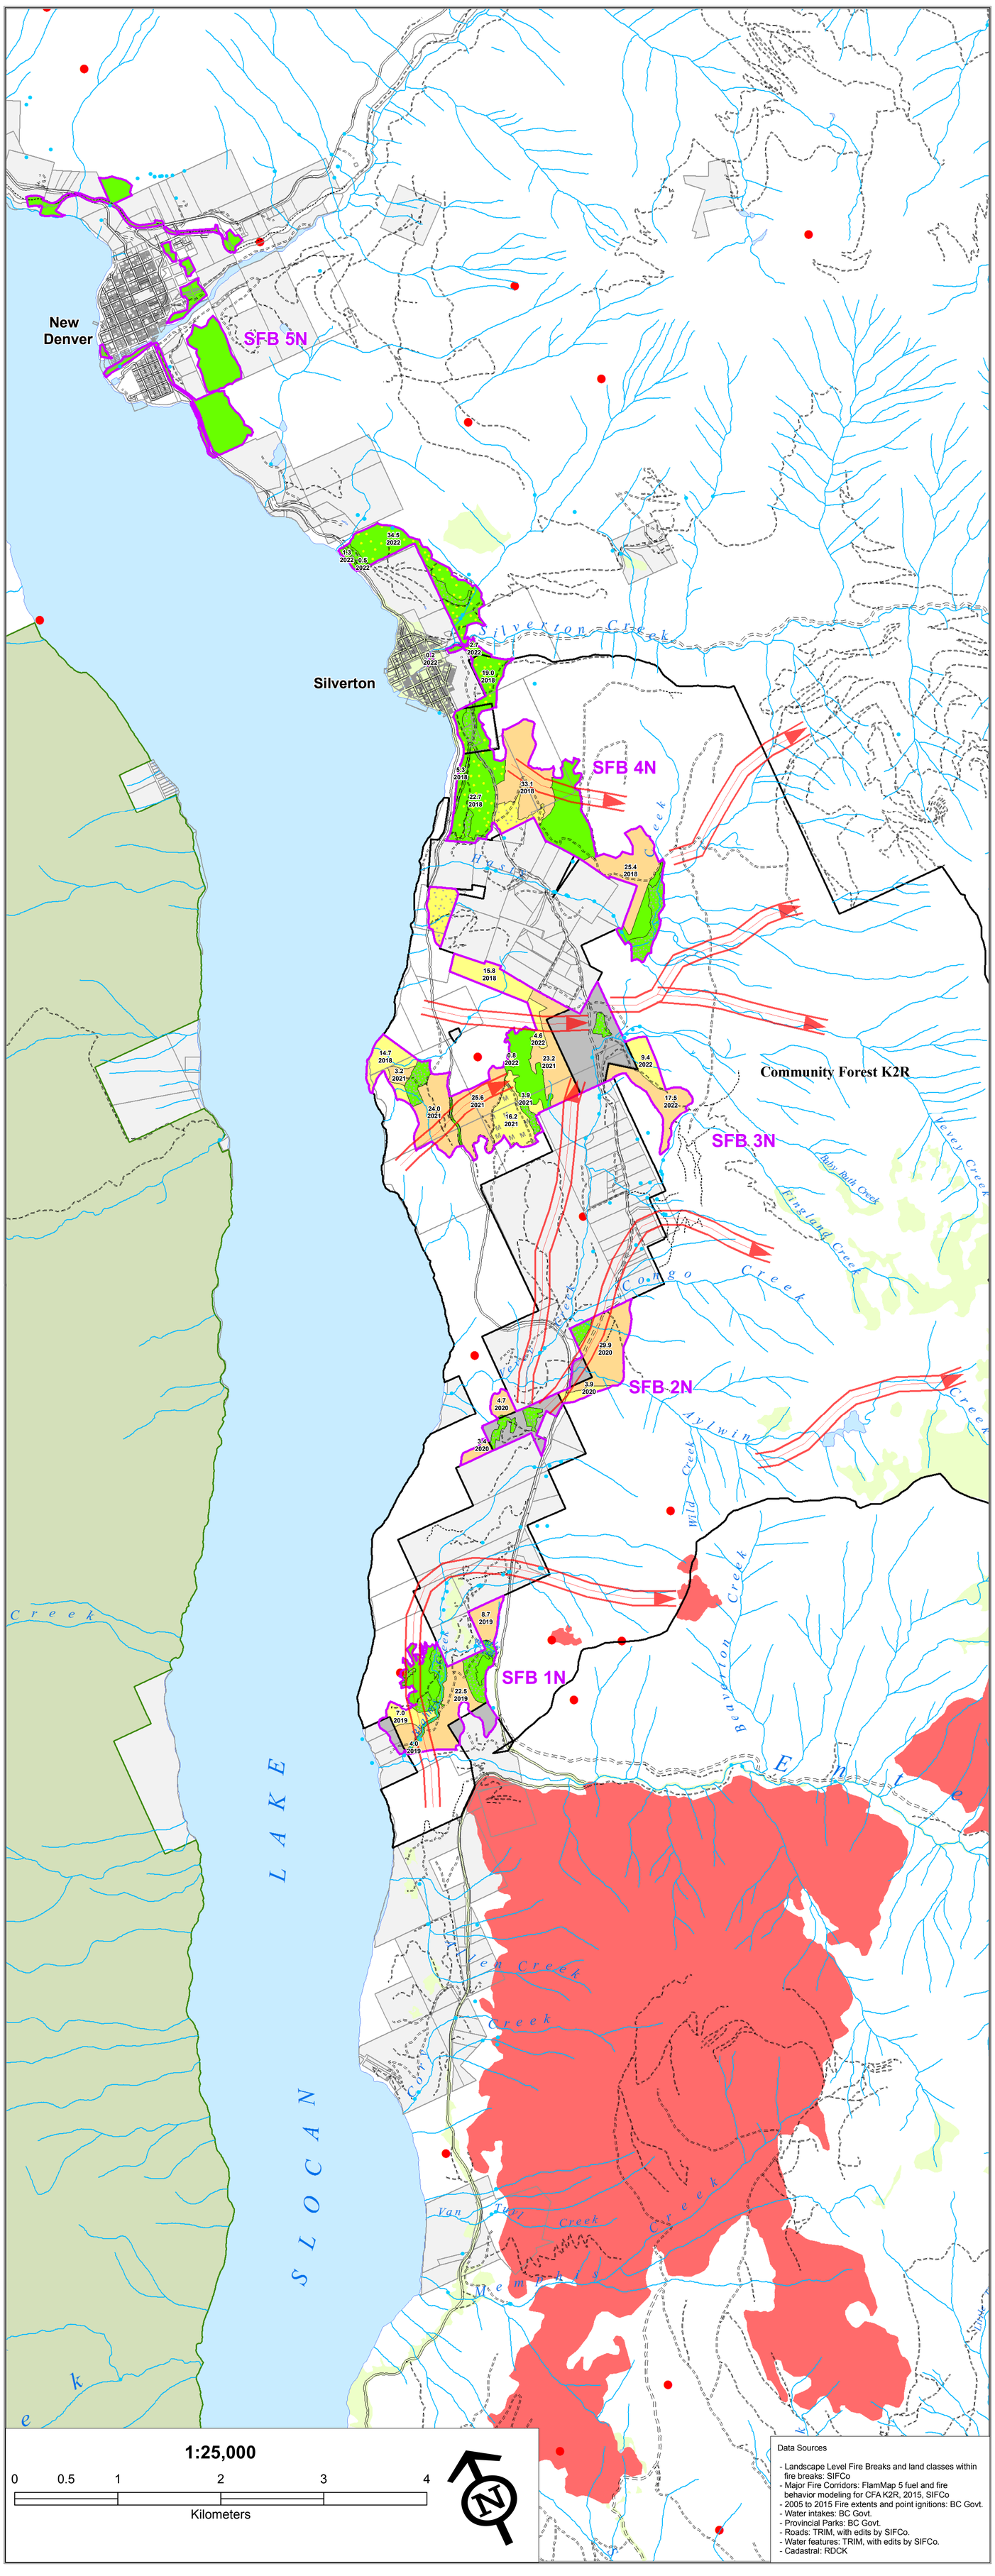
Slocan Integral Forestry Cooperative

SIFCo

Community Forest Agreement K2R

Appendix 2

Slocan Valley Strategic Landscape Level Fuel Management Plan
North Valley Unit



Landscape Level Strategic Fire Breaks

- Landscape Level Strategic Fire Breaks
- SFB 5S — Strategic Fire Break Designation
- Completed Wildland Urban Interface Fuel Management
- Areas with Low Fuel Loads and Untreatable Areas within Strategic Fuel Breaks
- Type 1 — Proposed Wildland-Urban Interface Fuel Management
- Type 1 — 2018-19 SWPI Funded Wildland Urban Interface Fuel Management
- Type 2 — Proposed Post-Harvest Fuel Management
- Type 3 — Proposed Machine-Based Wildland Urban Interface Fuel Management
- Type 4 — Proposed Fuel Management for Habitat Restoration and Ecosystem Resiliency
- Type 5 — Proposed Wildland-Urban Interface Re-Treatment
- Other Areas with Low Fuel Loads and Untreatable Areas

Note: Areas with low fuel loads includes managed agricultural fields, wetlands and bare soil.
Untreatable areas includes steep slopes and riparian reserves.

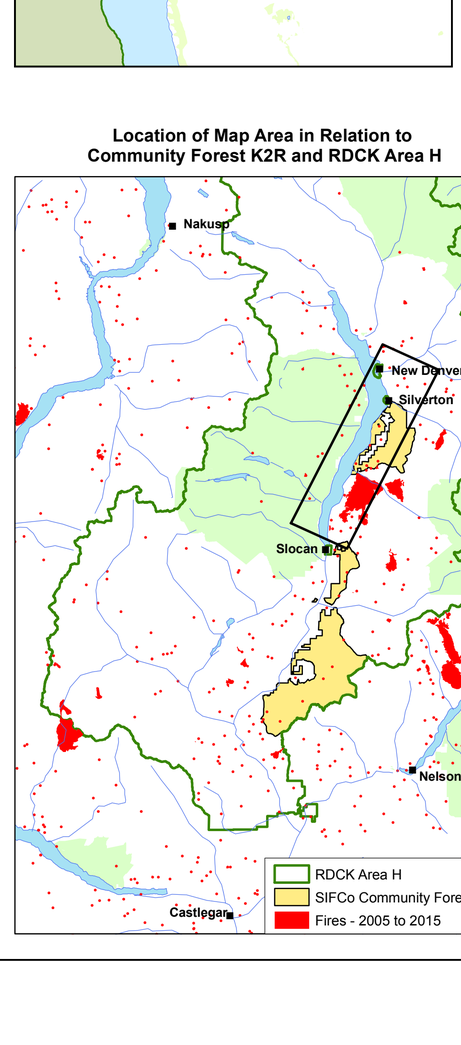
- Major Fire Movement Corridors from FlamMap5 Wildfire Simulation Modeling
- Fires less than 1 ha in size from 2005 to 2015
- Fires larger than 1 ha in size from 2005 to 2015

Ownership and Tenure
- Community Forest Boundary
- Private Land Within Strategic Fuel Break
- Other Private Land
- Provincial Parks

Water Features
- Lake or River
- Streams
- Water Intake

Transportation
- Highway
- Other Road
- Trail

Planned Year of Treatment



Planned Year of Treatment
- 2018
- 2019
- 2020
- 2021
- 2022
- 2023

Treated Prior to November 2017
- Treated Areas

Location of Map Area in Relation to Community Forest K2R and RDCK Area H

1:25,000

0 0.5 1 2 3 4

Kilometers
